LOGCAP IV

What is LOGCAP?

The Logistics Civil Augmentation Program, or LOGCAP, uses private sector contractors to provide a broad range of logistics and support services to U.S. and allied forces during combat, such as those missions now under way in Iraq and Afghanistan, as well as to other contingency, peacekeeping, humanitarian and training operations.

When does LOGCAP IV start?

Fluor/ITT is one of three contractors that have been selected by the government for LOGCAP IV. Multiple task orders will be delivered to each contractor who won LOGCAP IV throughout the next several years, and then each contractor will bid on the individual task orders. The government will then award each task order separately to the chosen contractor.

UPDATE: We have won a few task orders and have been recruiting to fill the positions required in these task orders. Currently we are deploying certain positions based on the government's needs in Afghanistan. There is still a lot of construction going on so not every position is ready to deploy. Please make sure your resume is current on our website so we can call you as we continue the recruitment for each of the positions. A Recruiter will contact you if your skills and experience match the requirements of our current vacancies.

Current opportunities that we are actively recruiting for are:

We have added quite a few more positions in anticipation of future work. Please look through the open positions on this website. We have the following available positions: Supply, Movement, HR, Finance, ESH, Contracts, Transportation, Linguists, Fire Protection, Operations, etc.

If you feel that you qualify for any of these current openings, please ensure you apply to these positions.

When should you receive your next task order?

We are uncertain as to when we will receive additional task orders. However; we will keep you updated on this site. When task orders are awarded, we will post the positions on our career site at www.ittsystems.com, review the resumes that were submitted to those positions, and then contact the candidates whose qualifications best fit the position requirements.

UPDATE: We have recently bid on another large task order in Afghanistan; we expect to hear the result of this by mid-May. Please check this publication for future updates.

Where is the next task order going to be?

Currently most of our task orders won have been located in Afghanistan; however the task orders may be worldwide, including the United States, with the most likely locations being overseas in the Middle East, Africa and Southwest/Southeast Asia

How do I apply?

Go to www.ittsystems.com and click on the *careers link* in the upper right corner of the gray bar. Then, click on the *online job search* link that is under the careers links heading on the right side of the page. If you want to search for any position, choose LOGCAP under location. This will show you all open positions under LOGCAP. Once you have found a position of interest, click on the job title link. This will take you to the job description. At the bottom of the job description, there is a link, *Add to Job Cart*, highlighted in blue which is where you will submit your résumé for the position.

Where do I find the LOGCAP jobs?

Once you get to our website at www.ittsystems.com, click on our *careers link*, and then click on the *online job search* link. Once on our search page choose “Int’l – Afghanistan” on the drop down menu under the *Location* heading or type the word “Int’l - Afghanistan” in the keyword search tool.

What is the best way to find the status of LOGCAP?

Check our website at www.ittsystems.com. You will find on the right side of our main page a link that says *LOGCAP UPDATE*. This will provide you with up-to-date and current information on the status of the LOGCAP IV contract.

Due to the high volume of calls that our recruiters get for LOGCAP, we regret that we are unable to take calls that are pertaining to the status of your resume or the status of LOGCAP IV. Please continue to keep yourself updated by visiting this publication.

What if I have an issue with posting my résumé to the website?

If you are experiencing difficulty with the career site, please contact Kenexa Technical Support at KRsupport@kenexa.com

How do I apply if I already work for ITT?

You must still apply to our website and also complete a Job Interest Form. You can get this form from your Human Resources Department or your Supervisor. All Job Interest forms must be signed by your Supervisor before submitting them to the LOGCAP Recruitment Team. Please submit your Job Interest Form to your local HR Manager.

UPDATE: There is now a new tool to search for only internal jobs. Please go to our internal "INTRANET" and on the left hand side of the page, there is a link "Systems Career (Internal)" This will bring you to the internal ITT Posting website.

How do I check the status of my résumé that I have submitted?

Go to www.ittsystems.com and click on the *careers link* in the upper right corner of the gray bar. Then, click on the *online job search* link that is under the careers links heading on the right side of the page. Click on *My Career Center*, underneath the careers heading on the left side of the page. This will take you to your profile login. Once you create a profile, this is where you can edit your résumé, and check the status of the positions that you applied for.

Do I need to continue to reapply for the same position?

Once you have applied to a position, there is no need to reapply for the same position. However, as *new* positions are added, please apply for those.

What if I forget my password?

On your profile login page, enter your e-mail address you used while creating your profile and click on the *Forgot password* link. This will e-mail you your new password. Please do not create an additional profile, as this will slow down the process of getting your résumé reviewed by our recruiting staff.

How can I reach and talk to an actual LOGCAP recruiter?

Due to the high volume of calls and inquiries to the LOGCAP contract, our recruitment team is unable to respond to calls or emails regarding any of the questions mentioned within this FAQ. Please continue to check this page on our website for all future inquiries to this contract. The LOGCAP recruiters will contact those candidates whose qualifications best meet the job requirements.

How can I reach other recruiters regarding other positions with ITT?

Due to the high volume of calls and inquiries to all of our project positions, our recruitment team is unable to respond to all calls or emails. Please continue to check the career page at www.ittsystems.com and apply to new positions posted. Individual project recruiters will contact those whose qualifications best meet the job requirements.
